

Ice Sled Saw

PROACTIVE ENVIRONMENTAL RESPONSE PRODUCTS

Proactive is pleased to present our in-house built Ice Sled Saw. Designed for safe and efficient winter response, this saw meets the demands of ice slotting in harsh winter conditions. Our unique design will exceed your emergency response expectations, both in safety and performance. No exposed moving parts, and no awkward body positions. In side by side comparisons our ice sled saw has proven to be the fastest unit available on the market.

Features include:

- Reliable 4 stroke Honda motor with electric start
- Fully enclosed housing for all moving parts
- Electronic ON/OFF clutching mechanism
- 2° set bar angle for easy ice block removal
- 32" or 36" Chainsaw bar with ripping chain

Recover – Clean – Treat
