

## Rescue Alive® Sled

### PROACTIVE ENVIRONMENTAL RESPONSE PRODUCTS

Proactive is pleased to be the Western Canadian distributor of the Rescue Alive® Sled. Designed for safe and efficient ice rescue, this sled provides 600 pounds of flotation allowing the rescuer to walk over very thin ice or paddle through open water. Weighing just 88 pounds, the sled provides a stable platform for rescuers to work from while remaining in control of the victim.

- Quick victim recovery
- Work from a position of control
- 600lbs of flotation
- Walk across ice or paddle through open water for quick rescue
- Includes victim harness for safe and efficient recovery
